## Living Legacy Tree Planting Project

The Living Legacy Tree Planting Project in association with the Journey Through Hallowed Grounds non-profit organization is a bold initiative that commemorates the 150<sup>th</sup> anniversary of the American Civil War. Through this program, one tree will be planted for each of the 620,000 soldiers who died on both sides of this war during one of the most defining moments in American history. Upon completion, the Living Legacy project will create the first 180 mile landscaped allee' in the world and the only allee' dedicated to memorializing the American Civil War.

Each tree costs \$100. Donations of any amount are welcomed. For each \$100 a club or individual donates, a tree may be dedicated to a specific soldier who made the ultimate sacrifice in the Civil War. You can make a difference by donating to the *VFGC's Living Legacy Tree Planting* project.
